S1 Table. AGR3 expression in different types of breast tumors

Histological type	No.	AGR3 expression, n (%)		r_s	p-value
		Low	High		
Benign lesions	51	47 (92.2)	4 (7.8)	0.195	0.000[a]
DCIS	62	45 (72.6)	17 (27.4)		
IDC	336	207 (61.6)	129 (38.4)		

p (Benign lesions and DCIS)=0.016; p (DCIS and IDC)=0.100; p-value was calculated by Spearman's rank-correlation test. AGR3, anterior gradient 3; DCIS, ductal carcinoma *in situ*; IDC, invasive ductal carcinoma. [a]p (Benign lesions and IDC)=0.000.
